

# Aleksandr Bushmanov

## Full-Stack / Frontend Developer

Valencia, Spain • 4lex.bu@gmail.com • +34 695 443 043 • [Github](#)

Frontend/Fullstack developer with more than 10 years of experience focused on delivering stable and maintainable web applications using React, TypeScript and Node.js. Comfortable working independently or as part of a team.

### PROFESSIONAL EXPERIENCE

---

THE NEW YORK TIMES

Remote

Senior Fullstack Engineer (React / Node.js)

2024-2025

- Built and maintained audience segmentation and delivery tools, powering campaigns for millions of readers
- Maintained and extended Node.js proxy services and API integrations, improving response times by 25%
- Improved observability (Datadog dashboards, GCP logs), reducing incident resolution time by 40%
- Supported infrastructure with Terraform and GCP Pub/Sub, increasing deployment reliability and scalability
- Integrated AWS services and secrets management
- Increased test coverage to 50%

JAGEX (RUNESCAPE LAUNCHER)

Remote

Senior Fullstack Engineer (NextJS / Electron)

2023-2024

- Developed high-performance desktop launcher using Electron and React, serving millions of players
- Ensured seamless cross-platform compatibility (Windows/macOS), reducing platform-specific bugs by 35%
- Optimized loading speed and rendering performance, decreasing startup time by 20%
- Integrated launcher with backend game APIs and CDN systems, improving update delivery reliability

SPACE307 (FINANCIAL PLATFORM)

Saint-Petersburg, Russia

Senior Fullstack Engineer (React / Node.js)

2021-2023

- Refactored a large React codebase, eliminating jQuery and reducing JS bundle size by 30%
- Built custom dashboards and internal analytics tools, improving decision-making speed for operations teams
- Prototyped high-performance chart rendering with FlatBuffers, enabling real-time financial data visualization
- Maintained CI/CD release process and created onboarding docs, cutting new developer ramp-up time by 30%
