Experience

RE Partners
Senior Fullstack Developer
January 2024 - Present (1 year 6 months)
New York, United States

Embedded in The New York Times messaging team through RE-Partners.
Focused on audience segmentation, infrastructure reliability, and developer
mentoring.

- Built and maintained scalable messaging tools for audience segmentation,
subscription tracking, and delivery monitoring at NYT
- Improved infrastructure reliability and monitoring with GCP, Datadog, and
Terraform
- Prototyped new messaging features and delivery systems
- Mentored engineers and led interview training sessions at RE-Partners
- Conducted 100+ interviews for senior/staff-level roles (e.g. Citibank,
Gymshark)
- Fostered internal engagement through async tech quizzes and team events

Sperasoft
Senior Full Stack Engineer
August 2023 - December 2023 (5 months)
Yerevan, Armenia

Worked on a high-performance game launcher for Jagex's RuneScape
franchise. Focused on UI responsiveness and cross-platform stability.

- Developed and optimized a cross-platform desktop launcher using Electron and React Native
- Collaborated with game backend and distribution teams for seamless release integration
- Ensured high UI performance across Windows/macOS platforms.
- Shipped critical updates and streamlined bug reporting workflow

Space307
Senior Software Engineer
August 2021 - February 2023 (1 year 7 months)
Кипр

Led key frontend and infrastructure initiatives for a large-scale trading platform with 60M+ users.

- Engineered decentralized caching for AWS architecture serving 500K+ daily requests
- Refactored legacy codebase, eliminating jQuery and reducing bundle size by 15%
- Established unified dev processes, onboarding guides, and review workflows
- Launched a popular DevRel newsletter for frontend engineers (1300+ subscribers)
- Integrated a custom analytics system to replace Amplitude for cost efficiency
- Prototyped high-performance charting tools using FlatBuffers
- Rewrote frontend onboarding docs and created tutorials for internal tools
- Authored articles to promote HR brand and improve colleagues' writing
- Launched a news feed for senior frontend developers (1300+ subscribers) as part of DevRel
- Implemented custom analytics solution by researching Amplitude performance
- Developed product features, including fast chart API with FlatBuffers, market component rebuild, and new experience system integration

KMS Lighthouse
Senior Software Engineer
November 2020 - June 2021 (8 months)
Санкт-Петербург, Санкт-Петербург, Россия

Led a cross-functional team to improve a knowledge management platform with AI search capabilities.

- Implemented AI-powered search in the KMS used by large enterprise clients

- Managed a distributed team of frontend, backend, and QA engineers
- Improved delivery cadence by streamlining collaboration between tech and business

Distillery
Senior Frontend Developer
February 2019 - November 2020 (1 year 10 months)
Санкт-Петербург, Россия

Led international projects across fintech and e-commerce. Built scalable web apps and internal tooling.

- Led frontend/backend delivery for 3 client website migrations to modern tech stacks
- Developed mobile web features for a major Russian bank as guest engineer
- Improved interview pipeline for LatAm/Russian hires through technical leadership
- Owned architecture and delivery of internal management tools

"ЭКЗЕК ЛОДЖИК"
Full-stack Developer
June 2016 - December 2018 (2 years 7 months)
St Petersburg City, Russia

Sole developer for a geometry-heavy roofing estimation platform. Built cost optimization tools from scratch.

- Built a high-performance frontend app with real-time geometric calculations
- Rewrote backend to reduce pricing algorithm latency from 2s to 50ms
- Implemented custom ray-tracing logic for 3D roof layouts

AdWatch Isobar
Frontend Engineer
July 2014 - November 2015 (1 year 5 months)
St Petersburg, St Petersburg City, Russia

Developed promotional websites and landing pages for global CPG brands.

- Built fast, responsive websites for clients like Nestlé, Danone, Colgate
- Transformed Figma designs into pixel-perfect cross-browser code
- Worked under tight deadlines while maintaining high quality standard

Self-Employed

Frontend Developer
January 2012 - June 2014 (2 years 6 months)
Санкт-Петербург, Россия

Freelancer and self-taught engineer focused on small business landing pages
and learning web technologies.

- Built 10+ landing pages and CMS themes for local businesses
- Self-learned modern web stack through projects and experimentation
- Background in media and visual storytelling shaped UX approach
